

# Alejandria (LOW PROFILE)

## ABOUT

The Alejandria is the entry-level Farho model. It still boasts the same heating hardware, giving you high-quality heat with the difference being it's straightforward analogue thermostat which merits great user-friendliness.

The low profile version is especially suited to conservatories with low walls.

## KEY FEATURES

- User friendly thermostat
- Lighted operation switch
- FARHOIL thermal fluid technology
- Requires no maintenance
- 10 Year warranty
- Safety heat limiter
- Supplied with wall bracket kit
- Simple analogue thermostat, making it suitable for the mass-market
- Low-profile design suitable for conservatories

MODEL NUMBER	DIMENSIONS (HxWxD mm)	WEIGHT (kg)	FINS
AL-9	350x850x95	12	9
AL-11	350x1010x95	14.5	11
AL-13	350x1170x95	17	13

All radiators are constructed from injected aluminium and use a 1" metalclad resistor manufactured from ASISI-304 stainless steel tube for low energy consumption and maximum heat efficiency.
